

## ENVIRONMENTAL & SCIENTIFIC INSHORE FISHERIES & CONSERVATION OFFICER

Want to make a real difference to Northumberland Marine Environment?

This post will be of interest to those who are motivated and committed to this important area.

### The role

Will include

- Supporting the development of the EMS Revised Approach to commercial fisheries.
- Updating NIFCA Strategic Research Plan.
- Developing our Strategic Environmental Assessment.
- Engaging with a wide range of stakeholders in different areas of the Authority remit.
- Working with partner agencies (including Defra, Natural England, MMO and Environment Agency) in respect of NIFCA projects, as well as with other IFCAs on the national Technical Advisory Group.

### The person

- Highly motivated to work in a team committed to the marine environment
- Minimum degree qualification in marine biology/environment sector.
- Strong IT skills/ARC GIS essential.
- Flexible, with awareness of the fisheries sector and experience of the Environmental sector an advantage.
- Able to work onshore, on Authority vessels and office.
