NOTICE TO MARINERS

BLYTH OFFSHORE DEMONSTRATOR:  Geotechnical Survey Notification

General Information

A Geotechnical Survey is planned to commence on or around the 5th October 2013 on and around the location of the Blyth Demonstrator Site. The works will be undertaken by Horizon Geosciences Ltd UK, using the vessel ‘Horizon Geobay’. RSS Marine have been appointed to undertake on behalf of Horizon Geosciences Ltd UK the role of fisheries liaison.

The vessel will be a DP2 vessel that requires no mooring or anchoring arrangements and will not be towing any survey equipment. The geotechnical campaign will involve drilling geotechnical boreholes to recover rock core samples, in association with the development of the NAREC site.

The vessel will be deploying within the boundaries of the area shown in the Chart below for an approximate duration of 30 days, the vessels details are shown below.

Vessel Details

<table>
<thead>
<tr>
<th>Name: Horizon Geobay</th>
<th><img src="image" alt="Horizon Geobay" /></th>
</tr>
</thead>
<tbody>
<tr>
<td>Call Sign: 3ETG2</td>
<td>IMO Number: 7801556</td>
</tr>
</tbody>
</table>

The vessel will be operating at various locations within the following boundaries as indicate on the attached chart. A local Fisheries Liaison Officer will be onboard the vessel for the duration of operations.

For onshore fisheries enquiries, please contact:

Simon Prince
