Please find attached an updated Notice to Mariners on behalf of Forewind providing details of proposed operations for the decommissioning and removal of two meteorological masts on Dogger Bank by the jack up rig Seafox 5. The works are now scheduled to take place between 15 September 2017 and 28 September 2017 (weather dependent) and all vessels in vicinity are advised to keep at least 500 metres clear of the operations. The locations of the two meteorological masts are provided in the attached Notice.

A fisheries liaison officer (FLO) will be on board for the duration of the operations and contact details for the FLO are provided in the Notice. Alternatively any queries can be directed to the Rig Manager.

If you do not wish to be included on the circulation list or are aware of any changes in contact information please let me know.

Kind regards

Dave Scott
