

Notice to Mariners

NOTICE TO MARINERS - HORNSEA ONE PROJECT ONE Boulder Clearance

Hornsea Project One – Notice to Mariners March 2018. Issued 27/02/2018 – Update 4

1. INTRODUCTION

Mariners are advised that Hornsea Project One will be continuing offshore boulder clearance works in the offshore export cable corridor and the wind farm array. Hornsea Project One Offshore Wind Farm is located within the UK Sector of the North Sea off the coast of East Yorkshire. Works commenced 7 September 2017. **EDT Jane** will join **MV Atlantic Explorer** to continue this work scope from circa **01st of March 2018**.

The works will include undertaking boulder clearance activities along the export cable, inter-link cables and inter array cables.

2. SAFETY

It is requested that anybody having knowledge of any potential objects submerged or moored on the seabed, within the area or operations, that could be damaged or form a hazard to the works vessel and its equipment advises the Project’s Fishing Industry Liaison of their position and nature.

When works commence a listening watch will be maintained on VHF Channel 12 and 16 when within the appropriate port authority area, and will actively transmit an AIS signal. The works vessel will also broadcast at regular daily intervals, vessel position, operational information and intentions.

3. IMMEDIATE CONTACTS

The contents of this notice are based upon our current understanding of Project One requirements. A further notice will be issued with any further updates. Enquiries regarding the contents of this Notice to Mariners or any other matters should be directed to:

5. OPERATIONS

Activities will centre on the Hornsea Project One wind farm array and offshore export cable corridor.

The works vessels will be deployed to offshore locations within the wind farm array and export cable corridor at times and positions determined by project requirements, weather and sea conditions.

The operations will commence on or about the **01 March 2018** with **EDT Jane**. **Atlantic Explorer** is already undertaking this Work as previously notified. The work vessels will be deploying boulder clearance equipment and this will restrict their ability to manoeuvre. It will be requested that all vessels operating within the area keep a safe distance (500m) and pass at minimum speed to reduce vessel wash.

Please be advised that **Tideway** will be carrying out the operations with the **MV Atlantic Explorer** and **EDT Jane**.

Operations will be conducted on a 24 hour basis. Throughout operations the vessels will be displaying the shapes and lights prescribed in the International Rules for the Prevention of Collisions at Sea (COLREGS) Rule 27. Displaying the prescribed shapes and lights when the vessel is restricted in its ability to manoeuvre.

6. VESSELS

Works will be conducted by the vessel **MV Atlantic Explorer** and **EDT Jane**, whose details are provided below. Contact can be made directly with the vessels using the contact details listed below. Project contact details are provided in Section 3 of this NTM.
