

NOTICE TO MARINERS - HORNSEA PROJECT ONE Export Cable and Interlink Cable Laying Works

Hornsea Project One – Notice to Mariners August 2018. Issued 23/08/2018

1. INTRODUCTION

Mariners are advised that Hornsea Project One will be continuing cable lay works along the offshore export cable corridor and interlink corridor. Hornsea Project One Offshore Wind Farm is located within the UK Sector of the North Sea off the coast of East Yorkshire. Export Cable laying works will commence with **Living Stone** on or about **28 August 2018**.

2. SAFETY

It is requested that anybody having knowledge of any potential objects submerged or moored on the seabed, within the area of operations, that could be damaged or form a hazard to the works vessel and their equipment, advises the Projects Fishing Industry Liaison of their position and nature.

When works commence a listening watch will be maintained on VHF Channel 12 and 16 when within the appropriate port authority area, and will actively transmit an AIS signal. The vessels will also broadcast at regular daily intervals, vessel position, operational information and intentions.

3. IMMEDIATE CONTACTS

The contents of this notice are based upon our current understanding of Project One requirements. A further notice will be issued with any further updates, as well as Weekly Notice of Operations throughout the Works. Enquiries regarding the contents of this Notice to Mariners or any other matters should be directed to:

Mob: +44 (0) 7760 160 039 Email: alex@brownmay.com

5. OPERATIONS

Activities will centre on the Hornsea Project One wind farm offshore export cable and interlink corridor.

The vessel will be deployed to offshore locations within the export cable corridor and interlink corridor, at times and positions determined by client requirements, weather and sea conditions.

The operations will commence with **Living Stone** on or about the **28 August 2018**. The exact finish date is dependent on the prevailing weather conditions, vessel downtime and work progress.

The vessel will be laying cables, and this will restrict its ability to manoeuvre. It will be requested that all vessels operating within the area keep a safe distance (500m) and pass at minimum speed to reduce vessel wash.

Operations will be conducted on a 24 hour basis. Throughout operations the vessels will be displaying the shapes and lights prescribed in the International Rules for the Prevention of Collisions at Sea (COLREGS) Rule 27. Displaying the prescribed shapes and lights when the vessel is restricted in its ability to manoeuvre.
