NOTICE TO MARINERS - HORNSEA PROJECT ONE Export Cable Nearshore Survey

Hornsea Project One – Notice to Mariners June 2019. Issued 14/06/2019

1. INTRODUCTION

Mariners are advised that Hornsea Project One will be carrying out a geophysical survey along the nearshore part of offshore export cable corridor. Hornsea Project One Offshore Wind Farm is located within the UK Sector of the North Sea off the coast of East Yorkshire.

Nearshore geophysical survey works will commence with *Geosurveyor XI* on or about **20 June 2019**.

2. SAFETY

It is requested that anybody having knowledge of any potential objects submerged or moored on the seabed, within the area of operations, that could be damaged or form a hazard to the works vessels and their equipment, advises the Projects Fishing Industry Liaison of their position and nature.

When works commence a listening watch will be maintained on VHF Channel 12 and 16 when within the appropriate port authority area, and will actively transmit an AIS signal. The vessels will also broadcast at regular daily intervals, vessel position, operational information and intentions.

3. IMMEDIATE CONTACTS

The contents of this notice are based upon our current understanding of Project One requirements. A further notice will be issued with any further updates, as well as Weekly Notice of Operations throughout the Works. The vessel will be deployed to offshore locations within the above section of the export cable corridor, at times and positions determined by client requirements, weather and sea conditions.

The operations will commence with **Geosurveyor XI** on or about the **20 June 2019**. The exact finish date is dependent on the prevailing weather conditions, vessel downtime and survey progress.

The vessel will be undertaking geophysical survey, and this will restrict its ability to manoeuvre. It will be requested that all vessels operating within the area keep a safe distance (500m) and pass at minimum speed to reduce vessel wash.

Operations will be conducted on a 24 hour basis. Throughout operations the vessels will be displaying the shapes and lights prescribed in the International Rules for the Prevention of Collisions at Sea (COLREGS) Rule 27. Displaying the prescribed shapes and lights when the vessel is restricted in its ability to manoeuvre.
