## 2 The UK main ports supporting current operations

Grimsby - Crew Transfer Vessels (CTV), light logistics (personnel, tools and equipment) & main vessel port logistics

## 3 Safety Information

All vessels not involved in construction activities are requested to keep 500m distance from construction and dive vessels whilst transiting the area

All vessels should proceed with caution whilst navigating and/or working in the area and be aware of the statutory 50m safety zone around each fixed asset.

The Self-Propelled Jack Up Barge (JUB) GMS Endeavour currently jacked up at Z12 and requires a 500m exclusion zone.

The Installation vessels Sea Challenger and Bold Tern are on site and installing WTG's in the West sector.

Increased helicopter activity is expected as hoisting to WTGs begins.

Discrepancies identified between coordinates should be questioned immediately to Ørsted. Information is supplied on a 'not for navigation' basis. All coordinates are WGS84 unless otherwise stated.

### 4 Deployed navigation aids and buoys

The offshore site boundary for HOW01 is shown as below and will be marked by standard IALA navigation marks. All buoys have been deployed as per below tables.

27/07/2018	Monopile and Transition Piece Installation Update - Innovation return to field	
23/08/2018	HOW01 NtM – Export Cable and Interlink Cable Installation Update (Vessel: Living Stone)	
31/08/2018	Transition piece installation - update	
31/08/2018	Intertidal and Nearshore Export Cable Works	
19/09/2018	Diving Met Mast Removal Preparation Campaign	
31/10/2018	Post lay rock placement r1	
09/11/2018	Notus Express TP bolt tightening vessel	
13/11/2018	UXO Detonation	

27/11/2018	Offshore Export Cable Burial – ETD Hercules	
04/01/2019	Decommissioning of Anemometry Mast	
25/01/2019	WTG Installation – Vessel Sea Challenger	
25/01/2019	WTG Installation – Bold Tern	
19/03/2019	Post Lay Rock Placement – Seahorse	
28/03/2019	Survey Vessel – Glomar Vantage	
03/05/2019	Holderness Coast Offshore Geophysical Survey	Update issued 04/06/2019
24/05/2019	Relocation of Hornsea Project One Construction Buoys	
24/05/2019	Post Lay Rock Placement Simon Stevin	
14/06/2019	Export Cable Nearshore Survey	
21/06/2019	Relocation of Hornsea Project One Construction Buoys	Update issued 04/07/19
09/08/2019	Export Cable Nearshore Cable Burial	

## 8 Safety Zones

The Secretary of State for the United Kingdom has declared safety zones under the following terms:

During Construction

1. 500 metres radius around each installation of wind turbine, collector substations and/or their substructures and foundations comprising the Hornsea One Offshore Wind Farm whilst work is being performed as indicated by the presence of construction vessels including jack ups.
2. 50 metres radius around each wind turbine, collector substations and/or their substructures and foundations installed but waiting to be commissioned as part of the Hornsea One Offshore Wind Farm. All fixed structures, including partially constructed structures such as turbine foundations, will be mounted and marked with a Flashing Yellow 2.5s light visible through 360 degrees with a 2nm range.

The table below indicates the Safety Zones that are active.

Asset	Size	Duration
Z12	500m	During the presence of the GMS Endeavour
All locations	500m	During the presence of the Edda Mistral
All locations	500m	During the presence of the Deep Cygnus
All locations	500m	During the presence of the Bold Tern
All locations	500m	During the presence of the Sea Challenger
