

# Notice to Mariners – Hornsea Project Two

**Notice of Commencement of Boulder Clearance – Issued 16/03/2020**

## **1. INTRODUCTION**

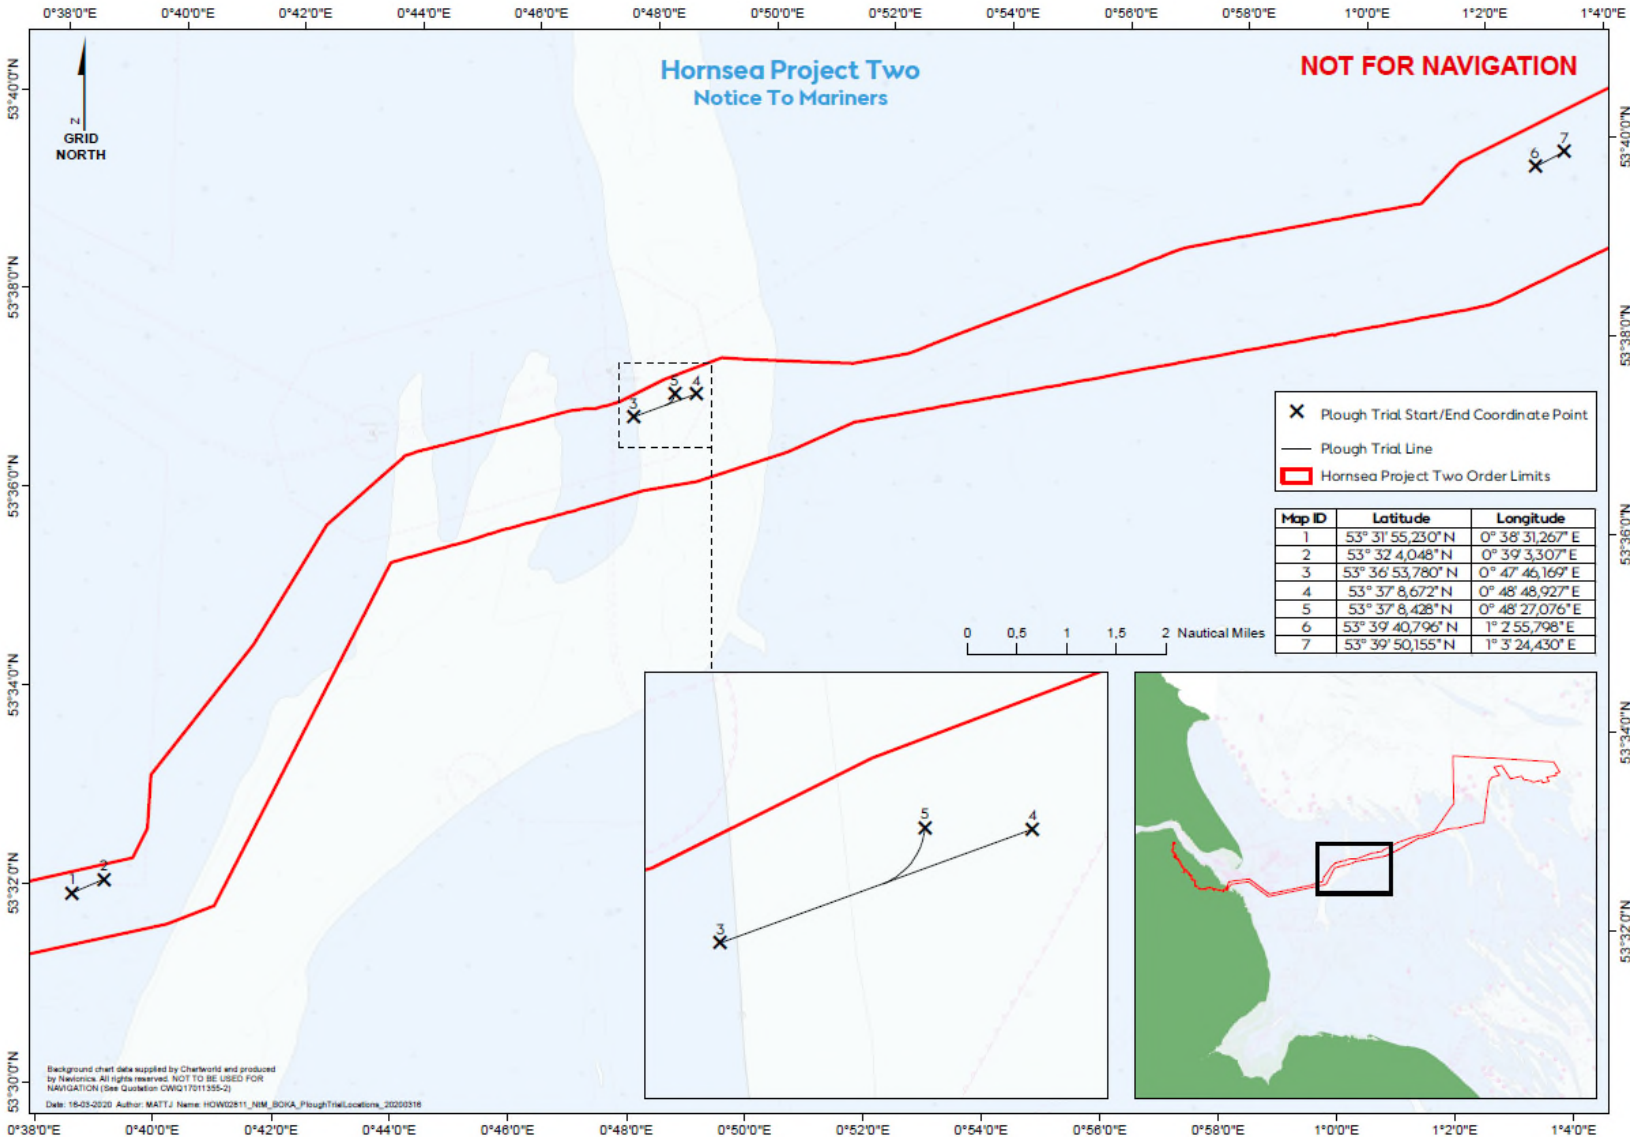

Mariners are advised that Ørsted will be commencing boulder clearance for the Hornsea Project Two Offshore Wind Farm.

## **2. AREA OF OPERATIONS**

Activities will focus on the Hornsea Project Two offshore wind farm export cable route as shown in Figure 1. The coordinates of the proposed survey are appended to the end of this Notice. Mariners are advised that MaxSea and Olex plotter files of the proposed survey areas can be provided by the Project's Commercial Fisheries Advisors at Brown and May Marine Limited and the Project's onshore fisheries liaison. Contact details are provided in Section 5 of this Notice.

Note that these works will be carried out alongside survey operations using the Titan Endeavour, as well as the UXO inspections and clearance activities and which will also be recommencing at the site for Hornsea Project Two.

### 3. SURVEY

#### 3.1 Boulder Clearance

Please be advised that Boskalis will be carrying out boulder clearance on behalf of Hornsea Project Two along the proposed export cable routes using the Boka Falcon as shown in Figure 1.

The works are expected to commence on or after 22<sup>nd</sup> March 2020 and will be intermittent throughout construction. Additional vessels will also mobilise to site in the forthcoming weeks to continue works. The exact survey dates are dependent on weather and work progress. When the works are complete, this Notice will be updated and re-issued.

Note that the vessel will have limited manoeuvrability and it is requested that all vessels operating near the vessels maintain a safe distance (at least 500m) and pass all vessels at minimum speed.

#### 3.2 Safety

It is requested that anybody having knowledge of any potential objects submerged or moored on the seabed within the survey area that could be damaged or form a hazard to the survey vessel and its equipment advises the Project's Fishing Industry Liaison of their position and nature. The Project has also requested the clearance of static fishing gear within the boundary shown in Figure 1 and Figure 2 and described in Section 7 of this Notice. When surveys commence a listening watch will be maintained on VHF Channel 12 and 16 when within the appropriate port authority area and will actively transmit an AIS signal.
