3. PROPOSED ACTIVITIES

3.1 Boulder Clearance and Trial Trenching

Please be advised that Boskalis will be continuing boulder clearance and trial trenching activities on behalf of Hornsea Project Two along the proposed export cable corridor using the Boka Falcon as shown in Figure 1.

The works have now commenced and will be intermittent throughout construction. Additional vessels will also mobilise to site in the forthcoming weeks to continue works. The exact survey dates are dependent on weather and work progress. When the works are complete, this Notice will be updated and re-issued.

Note that the vessel will have limited manoeuvrability and it is requested that all vessels operating near the vessels maintain a safe distance (at least 500m) and pass all vessels at minimum speed.

3.2 Safety

It is requested that anybody having knowledge of any potential objects submerged or moored on the seabed within the survey area that could be damaged or form a hazard to the vessel and its equipment advises the Project's Fishing Industry Liaison of their position and nature. The Project has also requested the clearance of static fishing gear within the boundary shown in Figure 1 and described in Section 7 of this Notice. When surveys commence a listening watch will be maintained on VHF Channel 12 and 16 when within the appropriate port authority area and will actively transmit an AIS signal.
